To Whom It May Concern:

I am writing this letter in recognition of the excellent video work Paul Doss with Alabama Gulf Coast Video produced for my property in Gulf Shores, Alabama. Mr. Doss was very professional in gathering information on what I, the owner expected in advertising my property. Mr. Doss explained in detail and gave examples on what the actual reality would be in producing such a video to promote my property in a setting to draw the customer in with the feel, sound and sights of what they are looking at. To actually make the person viewing the video feel as if they were right there walking through the property and wading in the shores water edge.

Mr. Doss took ample time in surveying the property from all angles. He insured the video was produced at peak times with the perfect weather, and without surrounding noise to take away from the description and beauty that I really wanted portrayed in the video of our Gulf Coast home. The video along with the back ground music and local sounds could not have turned out more perfect. The feedback that I have received has been 100% positive with comments like, "I felt like I was actually there," "I could hear and feel the water," and "it's makes me miss the coast terribly."

I could not give a higher recommendation for Mr. Doss's professionalism and produced work. He is very personable and easy to work with. His enthusiasm and knowledge for his work shows in his finished products. Mr. Doss would be an asset to any company.
